

ORANGE

PERDIDO BITTERS
CREATED BY LIQUID EXPERIENCE

One of the major innovations we propose with Perdido Orange is that, in addition to bitterness, we add acidity to the blend.

As for the aroma, we find deep spicy and fruity notes created by the combination of dried and fresh orange peels, with a slight nasal tingle from the mustard that is very pleasant. This combination of flavors also brings to mind fresh cereal notes.

Perdido Orange surprises the palate with a fresh, direct, and surprisingly acidic entry. The mustard and black pepper notes allow us to transition from that initial freshness to a robust, prolonged finish with astringent and bitter notes.
